- Gases & Welding Equipments
- Refrigerants & Equipments
- Firefighting & Safety
- Dosing Systems
- Test kits

clean ships...clean seas

Company Profile & History

Unimarine Group was established in Marine Chemical business in 1974, by setting up Unimarine Services Ltd.(ex J.G. Enterprises Ltd.) in April 1988. The intention of the founder was to represent international chemical companies and to promote worldwide sales in the international shipping and industrial market. The company realized that in order to fully satisfy its clients, it was essential to provide a complete package of related products & services and therefore extended its activities in the field of technical services, i.e. chemical cleaning for both shipping and industry, a field where technical know-how, experience, skills, efficiency and effectiveness are required.

Unimarine Group. (ex J.G. Enterprises Ltd.) approached the market by focusing and targeting on:

- Maintaining the quality of its products and services.
- Utilization of latest technology equipment in its entire field of its activity.
- Acceptable pricing policy, offering the best quality at the right price.
- Customer service through experienced, specialized, effective, efficient and punctual personnel.
- Long term, friendly relationships with its clients.

The correct strategies, with the combined efforts of both management and staff of Unimarine Group in the pursuit of achieving its goals, lead to the rapid recognition and growth of the company.

Since 1988, Unimarine Group acquired major companies like Vecom Hellas Ltd and Uniservice International S.A., Uniclean NV and also Unigas. Uniservice was established in 1917 and since then, produces maintenance and treatment chemicals for shipping and industry as well as providing technical services and solutions to technical problems. Unimarine Group today has its own production facilities, 5 own offices, 16 employees, 45 agents worldwide covering 850 ports with 100 people under international employment, a service network which is continuously growing. Latest development are the new Unimarine blending facility in Spain covering international distribution as well as sales for Spanish ports and Portugal.

Unimarine Group in order to expand its services and to cover the needs of its clients, included in its range the following:

- Gas Welding & Refrigerant products under the Unigas brand name.
- Firefighting and Safety Services under the brand names of Unimarine Safety and Unisafe.
- Industrial Chemicals under the Uniclean brand name.

And in order to comply with the latest international regulations of marine environmental protection, Company added the following additional products:

Oil spill kits and dispersants and chemicals under the Uniclean brandname, an "environmentally friendly" range of products, which have been especially developed for this purpose and with approvals from the various societies.

At a later stage this proved to be very rewarding, as it maintained the preference of the companies existing clients and attracted new potential clients.

In 2019 Unimarine Group decided to start its own branch in Dubai to handle all business in Middle East and Asia and especially the new sales office starting November 2019 in Singapore.

Last but not least Unimarine Group is growing fast with the major purpose to serve the market better every day. We thank all of our clients, business partners and our employees for their trust and contribution in our growth.

Unimarine - Products and Services

- Maintenance/Environmental/Chemical Cleaners
- Coatings/Corrosion Treatment
- Water Treatment Chemicals
- Sanitation Products
- Dosing Equipment
- Test Sets/Reagents
- Oil Spill Kits
- Gas Welding Equipment & Arc Welding Equipment
- Gases and Refrigerants
- Refrigeration Equipment
- Specialty Gases and Calibrations
- Sewage Systems
- Sealing/Packing & Jointings
- Pumps & Spare Parts
- Scale & Rust Removers
- Fuel Oil/Exhaust Gas Treatment
- Tank Cleaning
- Glassware & Apparatus
- Special Equipment
- RO Plants
- Scrubber Chemicals
- Ballast Tank Chemicals
- Offshore Oil & Gas Chemicals
- Safety Products & Services

Product information sheets and material safety data sheets (MSDS) are available to all its clients. Unimarine has certifications from ISO, ISSA, IMPA and IMO

Unimarine in alliance with Emisafe

Unimarine Safety (UNISAFE) and Emirates Safety joint forces to provide firefighting products and services in Middle East area.

Products for Marine Offshore and Oil and Gas

Fuel Oil Treatment

- FOT II 4100
- FOT Dual Purpose
- FOT Catalyst
- Vanasolvent
- FOT STC Extra

Lubricity improver for Gas Oil, Diesel Oil and Middle distillates
Fuel Conditioner, Combustion Improver
Combustion Improver, Reduces Carbon Deposits
Vanadium/Sodium Conditioner, Prevents Corrosion
Sludge Cleaner & Treatment for Fuel Tanks

Fire Side Treatment

- Soot Remover Liquid
- Soot Remover Powder

Removes of Soot/Carbon deposits on fire side
Removes of Soot/Carbon deposits on fire side

Gas Side Treatment/Turbo

- Economizer Treat Liquid
- Asteroids
- Gas Side Cleaner

Liquid Soot Remover for exhaust boilers (LT)
For dry cleaning of turbo blowers
To wash exhaust gas boiler

Biological Treatment

- Bio Control FOT

Prevents biological contamination in fuel

Oil Spill Dispersants/Tank Cleaners & Oil Grease Removers

- ECODIS - (Oil Spill Dispersant Type 1)
- Uniclean OSD Enviro R2USE
- Ecoclean
- Cold Wash/GP Degreaser
- Seaclean/Tankclean
- Uniclean Break
- Alkaclean Liquid Sodium Based
- Alkaclean Liquid High Foam
- Alkaclean Liquid Potassium Based
- Alkaclean Safety
- Marisol
- Genepol/Multicleaner
- Water Based Neutral HCF
- Liquid Soap
- Uniclean GP
- Uniclean HD
- Uniclean Tank Separating
- Uniclean Aqua-Quick
- Coal Tar Remover
- EC Coat Barrier (Slip Coat)
- Bauxite Remover
- Lime Cleaner
- Buffercleaner 5.5 Conc

Oil Spill Dispersant
Approved Oil Spill Dispersant (Alternative for Ecodis)
Envirocleaner Degreaser
Bilge, Tanks, Parts Degreaser
Tanks, Bilge, Double Bottom
Tank Cleaner Separating Oil/Water
Fish, Veg Oil, Coal, Pet Coke, Sunflower, Weed Alk Cleaner
Fish, Veg Oil, Coal, Pet Coke, Sunflower, Weed Alk Cleaner
Fish, Veg Oil, Coal, Pet Coke, Sunflower, Weed Alk Cleaner
Fish, Veg Oil, Alkaline Cleaner (Zinc Coated Tanks)
Light Alkaline Detergent
Neutral Detergent for general use
Hydrocarbon Removal-Neutral Detergent
Eliminates leads on Cargo Tanks
Waterbased General Purpose Degreaser
Deodorizer Liquid for Inert Gas Residues
Heavy-Duty Tank Cleaner with splitting components
100% Biodegradable Multifunctional Degreaser
Removal of Coal Tar, Crude Benzene, Bitumen
Waterbased Liquid formulated to leave thin film on Cargo Hold surfaces
Ideal for the removal of Bauxite Deposits
Removes Lime and Stains from Metal & Wooden surfaces
To remove traces of lead, Hydrocarbons, Chlorides and
Sulfites from Zinc-Silicate Coated Tanks
Effective Liquid for Pet Coke Remover
Heavy Duty Tankcleaner-Emulsifier
Specialty product for Oil & Gas
Specialty product for Oil & Gas

Products for Marine Offshore and Oil and Gas

Ballast Tank Water Treatment

- Mud and Silt Dispersant
- Sodium Thiosulphate
- Sodium Biosulphate
- Chlor 12
- Caustic Soda

Ballast Water Mud Dispersant

Scrubbers Chemical Treatment

Scrubbers Treatment

- Magnesium Oxide
- Caustic Soda (Liquid and Powder)

Tank Cleaning Raw Materials

- Acetone
- Ammonia Liquid
- Butyl Glycol
- Caustic Soda Flakes
- D.I. Water
- Ethanol
- Toluene
- ISO Propyl alcohol
- Xylene
- Methylene Chloride
- Methyl Ethyl Ketone
- Chemicals for scrubbers and Ballast Water Systems

Chemicals for Cleaning and Maintenance

Electro Cleaner

- Lectro Clean Fast
- Lectro Clean Slow
- Uniclean Electro Enviro

Fast Drying
Slow Drying
Non-Conductive Electro-Cleaner (Alternative for all Electro-Cleaners)

Carbon Solvents

- Carbon Remover NC
- Air Cooler Cleaner
- Filter Clean

Heavy-Duty Degreaser, Tips, Filters Cleaner
Heavy-Duty Degreaser Air Cooler Cleaner
Heavy-Duty Filter Cleaner

Acid Cleaners

- Descaling Liquid
- Safe Descaler Powder
- Rust Remover
- Cement Remover
- Lube Oil Separator Cleaner
- Uniclean Eco Acid

Liquid Descaler for Water Scale
Powder Descaler for Water Scale
Rust Cleaner
Cement Cleaner
Disc Cleaner, Acid Degreaser
Alternative Enviro Acid Cleaner

Coatings

- Navalan Rust Converter
- Navalan 402 Ballast Tank Soft Coating
- Navalan Pipe Dressing

Rust Converter on rusted steel
Ballast Tank Coating
Steam Pipe Anticorrosive Coating

Boiler Water Treatment

- BWT One Shot
- Hardness Control
- Alkalinity Control
- Condensate Control
- Oxygen Control
- Liquid Coagulant
- Hydrazine

One Shot Boiler and Feed Water Treatment
Adjustment Hardness and Phosphate
Adjusts Alkalinity
Adjusts Ph on condensate, Corrosion Inhibitor
Catalyzed for rapid oxygen removal (Sodium Bisulfite)
Eliminates light oil contamination, sludge conditioner
Oxygen Scavenger

Organic Boiler Water Treatment

- OBWT-3
- OBWT-4

Control of PH, Corrosion, Scale & Sludge
Control Corrosion Feed, Steam System

Evaporate Treatment

- Liquivap

Anti-Scale, Antifoam for Evaporator

Chemicals for Cleaning and Maintenance

Diesel Engine Cooling Water Treatment

- NCLT-Diesel Engine Water Treatment Anticorrosion Nitrites Based

Seawater Antifoulant

- Ecosperse Plus Antifoulant, Anticorrosion Seawater System

Potable Water Treatment

- Potable Water Stabilizer Eliminates "Red" Potable Water
- Hypochlorite Solution 10 -15% Chlorinate and control bacterial growth in potable water

Reverse Osmosis Desalinator Water Treatment

- OSMO Antiscal 1 (Flocon 100) High performance Antiscalant for RO System
- OSMO Clean 2 or 3 Acid and Basic Detergents for RO Cleaning

Sewage & Biological Product

- Chlorine Tablets Swimming Pool, Jacuzzi, Sewage Tanks
- Chlor 12 Liquid Chlorine
- Microzyme Liquid Environmentally Superior Sanitation Treatment & Cleaner
- PH Plus Increase PH
- PH Minus Minus PH
- Defoamer Anti Foam Additive

Stainless Steel Products

- Stainless Steel Pickling Liquid and Gel For Pickling Stainless Steel Tanks, Pipelines etc
- Stainless Steel Passivating For Passivating Stainless Steel Tanks, Pipelines etc
- Stainless Steel Paste For Pickling in paste form

Special Products

- Microzyme Liquid Environmentally superior sanitation treatment & cleaner
- Hand Cleaner Liquid
- Hand Cleaner Paste
- Air Fresh WB Masks unpleasant odors in Tanks/Holds
- Microzyme Powder (PDC) Enviro Sanitation Treatment Powder Form

Environmental Products

- Microzyme Liquid Bacteria based product for Sanitation Treatment and Cleaning
- Uniclean GP (Alternative for Cold Wash-Marisol-Genepol-Water Based Neutral HCF)
- Uniclean HD Deodorizer liquid for Inert Gas residues
- Uniclean OSD Enviro R2USE Approved Oil Spill Dispersant (Alternative for Ecodis Type III)
- Uniclean Aqua-Quick 100% Biodegradable multifunctional degreaser
- Ecoclean/Enviroclean
- EC - Coat Barrier Slip Coat - Enviro Friendly Barrier
- OSD ECO HD (Concentrate) Approved by ROPME - MMO (UK) CEDRE FRANCE as per IMO standards

Testing and Dosing Equipments - A Step Ahead in Testing

Test Kits for PWT & Sewage - Legionella

- Potable Water Test Kit
- Sewage
- Legionella

Spectrophotometer and Manual

Water Test Kits for Boiler & Cooling Water Treatment

- P.Alkalinity
- M.Alkalinity
- P&M.Alkalinity
- Phosphate
- Chloride
- DEHA
- Nitrite
- PH Paper and Pen
- Conductivity Meter
- Water I.D Prime Lab 1.00 Multitest Photometer
- Pool Water Test Kits

Spectrophotometer
All Test in One Kit

PRIMELAB 1.0
MULTITEST
PHOTOMETER
WATER-I.D.
WATER TESTING EQUIPMENT ●●●

Fuel and Lube Oil Test Kits

- WIO Test Kit - Fuel and Lube Oil Test Kit
No.3 and No. 5 and all related reagents

Water in Oil Test Kit-BN-Salt etc

Manual and Spectrometer Wall Wash Test Kits

- Wall Wash Test Kits

Testing the tanks walls after washing

Pumps with Accessories

- Barrel Pumps
- Chemical Applicators
- Double Diphram Pumps
- Grease Pumps

Cleaning Equipment

- Mobile High Pressure Cleaners & Accessories
- Cargo Hold Cleaning Kit & Accessories
- Ultrasonic Cleaning Machines

UNIGAS....the alternative choice

Welding and Cutting Gases and Refrigerants :

- Oxygen
- Acetylene
- R22
- R 134 A - R407C - R404A
- Nitrogen
- Propane
- All Refrigerants and Refrigeration Equipment
- High quality welding
- Welding and Cutting Equipment
- Electrodes, Pressure Gauges (Marine), Tools etc
- Standard compatible and interchangeable with other marine suppliers

The Unimarine Program for Gases is composed of :

- Exchange cylinder system (no rental fee)
- Worldwide availability
- Reliable refilling stations
- Refund of deposits as per Terms & Conditions
- Cylinder tracing and monitoring
- OX/AC Nitrogen systems for new buildings
- Ask for our special Electrodes Catalogue
- Gas Welding - and Brazing Rods
- Unigas Fluxes

Unimarine in alliance with Emisafe

Unimarine Firefighting and Safety program includes the full range of : Equipment, Installations, Service, Inspections and Repairs:

- CO2 high - and low pressure systems
- Halon-foam-and dry powder systems
- Potable fire extinguishers
- Firefighting appliances
- Breathing air apparatus
- Emergency escape breathing devices
- Inflatable boats and life rafts
- Smoke detection systems
- Gas detection systems
- Signs and signaling
- Fire Aerosol system
